

Custom-Design Production Solutions

Cutting Drilling Press Punch CNC Plasma Oxy-Flame

- Affordable Automated Production Systems
- Custom-Design to Suit Process
- Material Feeder and Loader Integrated
- New or Retrofit to Your Existing Machinery
- Speed Up Production, Eliminate Errors and Reduce Costs

Custom Cold Cutting Systems

- Aluminium, steel, fiberglass cutting and more
- Bar feeder and loader integrated saws
- Cuts collect and sort systems
- High speed, high capacity saws
- Long stroke, mitre and compound saws
- Special and difficult application saws

Custom Press Punch Applications

- Mechanical, hydraulic and air actuated presses
- High speed, high force punching applications
- Continuous production with tube feeder and loaders
- Programmable half or full side punching
- Auto tube measurement and hole nesting
- Self-centering tool / mandrels with slug removal

Automated Industrial Drills

- Custom-made drilling and tapping applications
- CNC hole positioning, feed, clamping
- Piece rotation for all-side drilling
- Multi-spindle heads and tool exchangers
- Drilling, tapping, counter-sinking and more

Every production-critical business needs effective automation to stay one step ahead.

If you're spending a lot on labour for repetitive manufacturing, have accuracy problems, or just an unusual production requirement, **ReconEng** can provide a production solution to get your business ahead.
